To Mr. Shiam Beehary

Figma to flutter

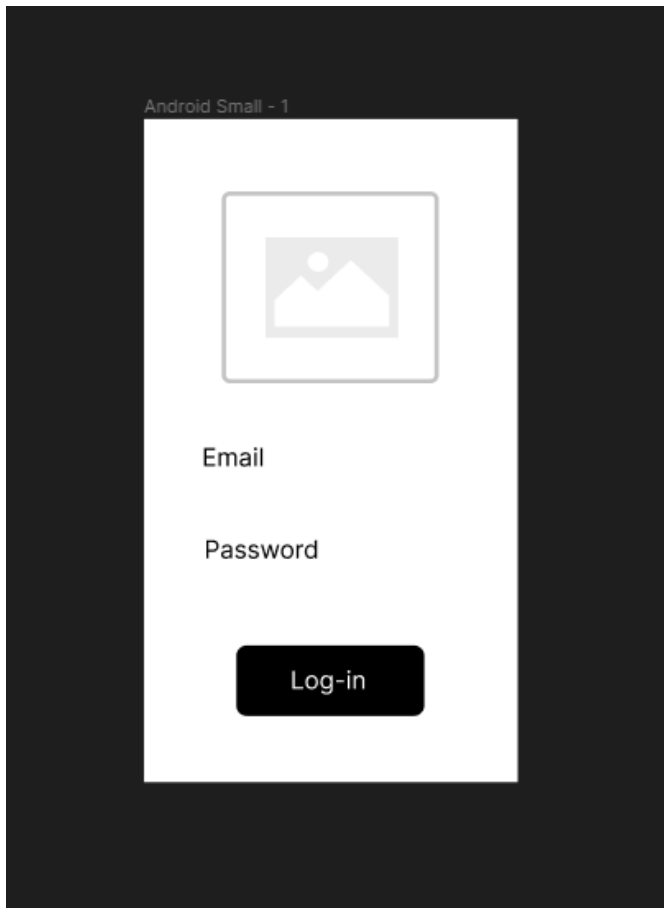

1. Opening the Figma app on the pc

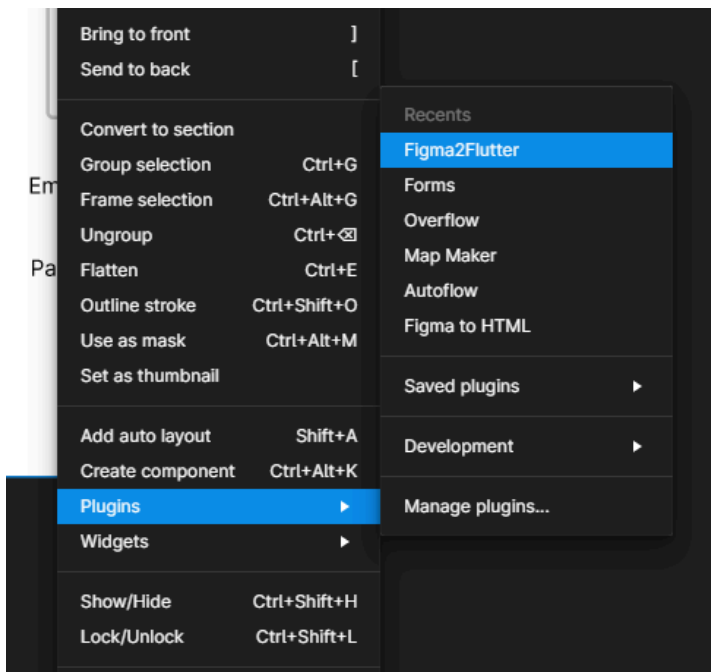

2. Download the figma2flutter plugin from the figma community

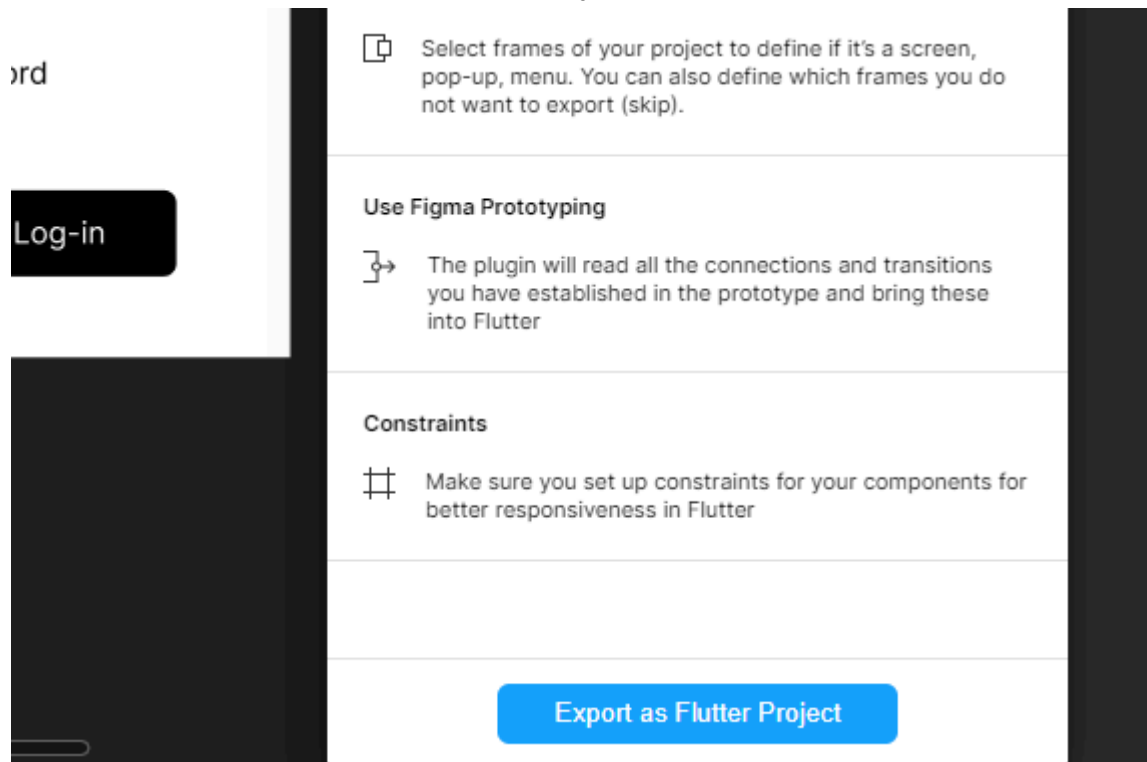

3. Open a design or create one

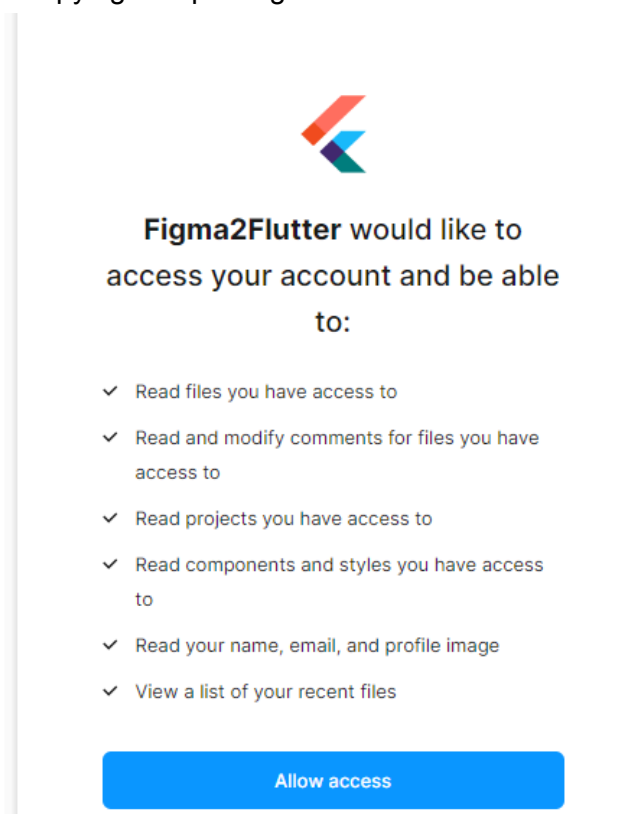

4. Choose the figma2flutter tool in the plugin section

5. Select a screen and export it as flutter project

6. Copying and pasting the link of the document on the input url

7. Using the button, “Allow access,” to allow the app to generate a Flutter project.
